svlOverlayBlobs

```
graph BT; A[svlOverlayBlobs] --> B[svlOverlay]; A --> C[svlOverlayInput];
```

The diagram illustrates a shared input relationship. A central box labeled 'svlOverlayBlobs' is positioned below two other boxes. Two arrows originate from the top of the 'svlOverlayBlobs' box and point upwards to the bottom of the 'svlOverlay' box on the left and the 'svlOverlayInput' box on the right, indicating that 'svlOverlayBlobs' provides input to both.
